
EU REACH REGULATION

Sony Mobile Compliance Statement

Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), hereinafter the Regulation, was adopted on 18 December 2006 and entered into force on 1 June 2007. Article 33(1) in the Regulation obliges suppliers of articles to inform the recipients of such an article about substances contained that are listed on the Candidate List of Substances of Very High Concern for authorization according to article 59 (1 and 10) of the Regulation.

[The Candidate List](#)¹ is continuously updated by the European Chemicals Agency (ECHA) at the ECHA website.

Listed substances that are present in articles in concentrations exceeding 0.1 % w/w, shall be communicated to recipients of an article and inform the recipient with sufficient information, available to the supplier, to allow safe use of the article including as a minimum, the name of the substance.

At the date of publication of this information notice, no substances listed on the current Candidate List (Updated on July 7, 2017) with regard to products placed on the market by Sony Mobile Communications are included above the threshold level (0.1 % w/w) stated in article 33 of the Regulation. Further on, Sony Mobile is not an importer to the European Community of any substances or preparations, nor does Sony Mobile manufacture any products that would fall under the obligations of article 7 of the Regulation.

For more information on banned and restricted substances in Sony products, please see Sony standard SS-00259² and Sony Mobile Critical Substances³.
